ORGANIZATION CHART

INTRODUCTION

RAMZ AL EKHWAH General Contracting Est. has started its journey mainly from Khurais Area providing accommodation and other project support services to the companies working on Aramco projects. Since its formally incorporation from 2014 to till now, it has achieved numerous mile stones in providing various kinds of services to major contractor and sub contractors of Aramco. We have been maintaining a long and worth-full list of our local clients and internationally accredited firms whom we are providing accommodation, partnering with them on Civil Works, and providing Project Support Services including supply of Construction Material and Construction Machinery and Manpower supply. **RAMZ AL EKHWAH** has invested ample of its capital and has drastically expanded its capacity and facilities covering to area of Haradh, Huwaiya, and Abqaiq apart from Al-Khurais keeping in view the announcement of mega projects of Oil and Gas worth billions of dollar by the Aramco.

We have modernized as well as systematically organized our resources, human team and planned to mobilize our services which associate to our Client's needs in carrying their awarded projects. **RAMZ AL EKHWAH** is a registered vender of ARAMCO and is committed to keep pacing for further improvement and development.

VISION

To be an entity with highly accredited in the field of Oil and Gas development and its support Services.

Mission

To expand and organize in the field of oil and gas project, support services based on modern methodology with a highly committed team and available resources .

The New CAT 320 Excavator is flexible, cost reducing and of the highest standards.

A contractor's success is highly reliant on the quality and performance of the equipment they are depending on to achieve their objectives even in the most challenging of circumstances and terrains.

I highly recommend CAT equipment and Zahid Tractor to any contractor that is searching for a reliable partnership, quality services and timely and periodic equipment maintenance. service and periodical equipment maintenance

OUR SERVICES

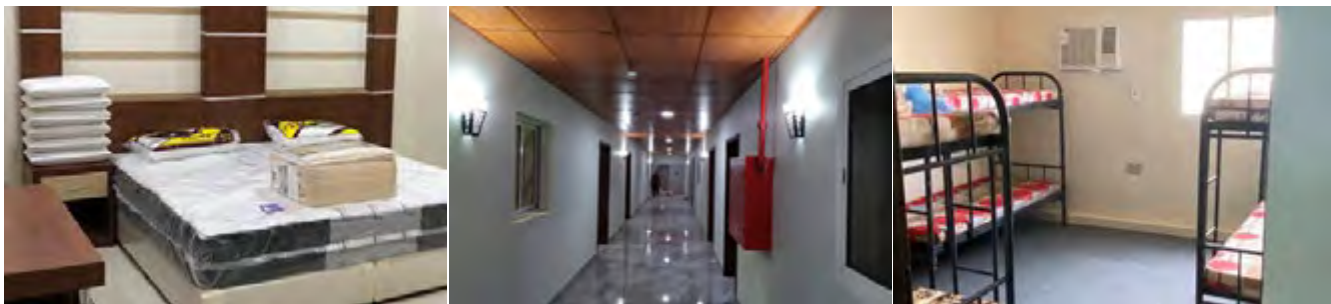

RAMZ AL EKHWAH is conceived itself as a services oriented organization that is committed to consistently expand its operations and to improve its quality of services in order to reap best of results. **RAMZ AL EKHWAH** has accurately interpreting the need of services and its arrangements for its valuable clients. It strictly observes and follows the necessary as well as mandatory protocols and standards of its principal clients. **RAMZ AI AKHWAH** has added number of services while ensuring up-to-mark quality. Brief description of some of its major services are mentioned ahead.

ACCOMODATION

As the management of **RAMZ AL EKHWAH** believes that accommodation is the core and critical issue of most of companies to accommodate their workers working on Aramco awarded projects based in eastern province. Their workers include from low skill to semi-skilled and a highly skilled work force. In order to cater this opportunity and to meet the need of companies, we have developed various categories of accommodation for the companies to accommodate their workers as per their policy and convenience. Currently we have a defined capacity of more than three thousand (3000) workers to accommodate in Khurais, Harad, Huwaiya and Abqaiq area . Meanwhile, we make sure to meet the quality criteria, standard and necessary protocols of every individual company as per their direction.

CIVIL WORK

CIVIL WORK

RAMZ AL EKHWAH has been carrying its Civil Work on oil and gas Wells of Aramco Projects in eastern region. We have acquired appropriate level of skills, all necessary sources & means and workforce equipped with required experience & techniques for CIVIL WORK. We have been providing our quality services in civil work to our valuable clients in conformance of nature and standard of civil work. The main highlights of civil work are as following.

- CONSTRUCTION OF RIGHT OF WAY (ROW).
 - FLOW LINE.
 - OVERHEAD POWER LINE.
- EXTENSION OF WELL PAD.
- TRENCH/EXCAVATION FOR FLOW LINE, TRUNK LINE .
- BERM WORK.
- EARLY WORK.

FENCING WORK & MATERIAL SUPPLY

FENCING

As it is widely observed that the fencing is constructed around the well pad, plant and building. **RAMZ AL EKHWAH** has proven experience of construction of fencing with bolt as per ARAMCO standards around the well pads in order to deter the access of general public and stranded animals. **RAMZ AL EKHWAH** has carried out said job effectively and has the capability to deliver the project successfully to its client.

CONSTRUCTION MATERIAL SUPPLY

RAMZ AL EKHWAH has embarked on supplying construction material to its valuable client as per their requirement. The construction material is being supplied on its required place. Following are the major category of construction material that we supply to our clients working on Aramco projects of oil and gas in Khurais, Huwaiya, Harad and Abqaiq areas.

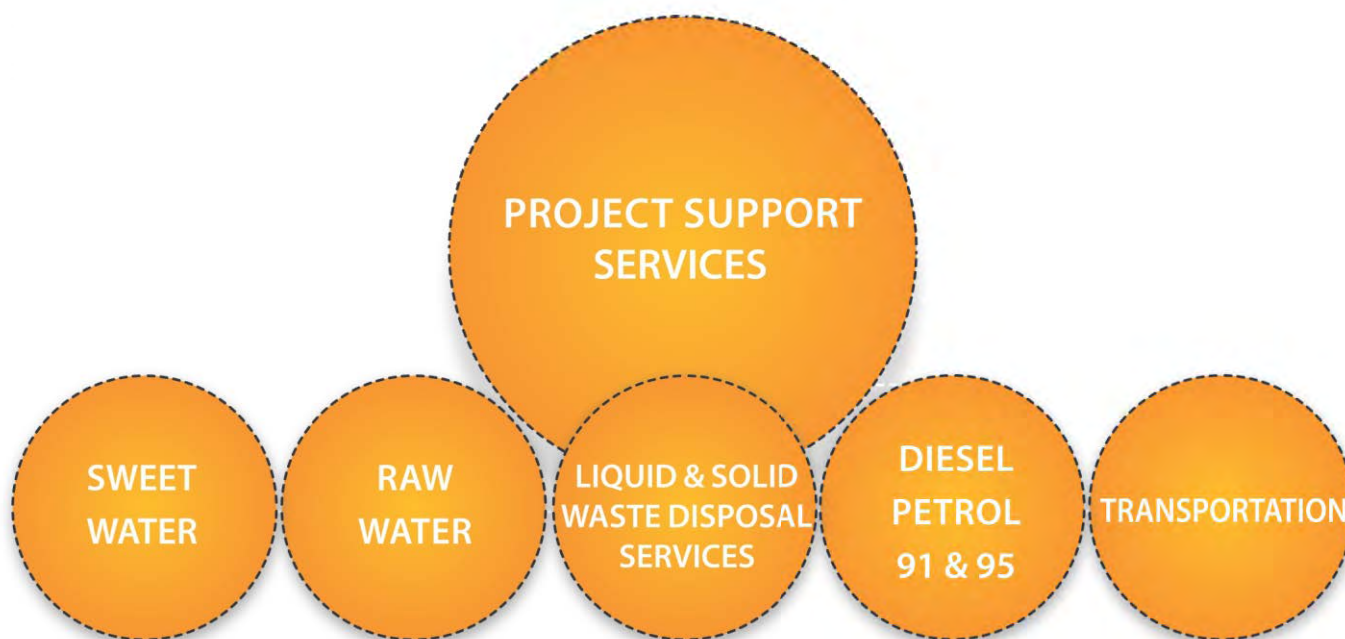

- SWEET SAND.
- MARL.
- CONCRETE
- ASPHALT.

- DOZER
- TRUCK
- TRAILER
- DUMPER
- CONCRETE MIXER.

MANPOWER SUPPLY

RAMZ AI EKHWAH has also expanded its operation in supplying of skilled and non-skilled manpower to its clients working on ARAMCO projects. The manpower of expats workers for various trades are recruited locally and supplied to the companies. We also manage to recruit overseas workforce from various countries for our valuable clients subject to their demand.

FUTURE PLAN

INSTALATION OF OVERHEAD POWER LINE OF WELL PAD AND CP WORK.

RAMZ AL EKHWAH is always determined to expand its portfolio of services to the valuable clients. We are in process of acquiring technical proficiency and an experienced, skilled and qualified team of workforce who will embark on the projects of OHPL and CP installation. We are expecting to be in position to work on the project very soon.
